

## 2<sup>nd</sup> TU/KMU Symposium on Engineering Education (2<sup>nd</sup> TKSEE)

### Call for papers

Center for Innovation and Creativity Development (Faculty of Engineering, The University of Tokushima) and Innovation Center for Engineering Education (Korea Maritime University) have made an agreement on international cooperation of engineering education. Many educational and research exchanges for professors and students of both universities have been done.

The first symposium; International Exchange Symposium on Engineering Education between Tokushima University and Korea Maritime University, was held in Busan, Korea, 2006. We are glad to announce you that the second symposium, 2<sup>nd</sup> TKSEE will be held in Tokushima, Japan.

The authors are encouraged to submit a paper on the following topics; engineering education, creativity development, capstone design, project activities by students, faculty developments, JABEE/ABEEK, university life, common topics in both universities.

#### Important dates:

August 15	Registration of participation
August 22	Technical program release
September 5	Deadline of paper submission
September 22	Symposium
September 23	Excursion
	Morning: Awa JyuroubeYashiki (joruri puppet theater)
	Afternoon: indigo blue dyeing experience
